

Registration for the 2021-2022 season for the 7v7 ages (birth years 2014-2012) is open meaning we eliminated the need to jump through the tryout hoops. At these ages, we have always felt that if a child wants to play, we should accommodate as who knows what path a player this age will eventually take. Therefore, anyone who wants to commit to us, we will commit to them and give them the opportunity to play; **however, this window is limited and expires July 14 at 11:55 pm.**

Why does the window close? This deadline is in place as this is when coaches will start scheduling games and they will need to know how many games to schedule which is based on how many players are in the program. We cannot have an influx of kids after the game scheduling process has finished – that is not fair to the coach, currently registered kids or the new kids who just joined. As such, joining on July 15 or thereafter is managed.

The way we will manage joining starting July 15 is interested players will need to register for tryouts and then it will be at the coaches' discretion to add players.
